Megan Kimble is the former executive editor of *The Texas Observer* and has written for *The New York Times*, *Texas Monthly*, and *The Guardian*. Her new book is [City Limits: Infrastructure, Inequality, and the Future of America's Highways](#).

“I have never lived in a city that was not wrapped in highways. It’s hard for me to imagine anything else. And I think that’s true for a lot of people today. ... [But] we have known since the origins of the interstate highways program that building highways through cities doesn’t fix traffic. And yet we keep doing it. To me, that really fueled a lot of the book. It wasn’t supposed to be this way.”
